## Other Business

Process for files that don't have a good "fit" (e.g., student dropped Calc I but was not dropped from accompanying lab; student dropped all but one course and didn't realize they needed to drop the last course) – currently sent to Ombud or Registrar depending on case (Tuition appeals has a process in place for some of these issues, but grades have to be a W); proposing a workgroup to see what can be done for simple administrative errors without having to convene UAB. Prior to 2021, SRWAC was voting on several of these cases.
