To Whom It May Concern:

The Art Education area has submitted changes as a result of the new UK Core implemented Fall 2011. In the change from the USP to the UK Core an additional 15 hours became available to our program and we have presented our use of the additional hours based on our needs for upgrading the program to a more robust and dynamic educational experience. This will prepare our prospective art teachers to deliver high quality learning experiences for their students in the 21st century art room.

Please see the current draft of bulletin narrative for the art education program which lays out the program requirements.

Sincerely,

Marty Henton, Senior Lecturer
Art Education Area Head

Rationale for Art Education Program Changes

The Art Education Area is proposing the following changes in the Art Education Program. These changes involve an addition of 11 credits to the major requirements.

1. 4 credits: an addition of 1 credit each to A-E 576, 577, 578. And 579.
2. 6 credits: an addition of 6 credit hours of studio courses
3. 1 credit: the addition of A-E 490

These additions, which are made possible by the reduction of core hours in the General Education program, will strengthen the Art Education Program in the following ways:

1. Strengthen the Art Education methods courses A-E 576, 577, 578, and 579 by making them each 3 credit hours. This will enable the area to increase technology training within the courses to expand current knowledge and meet the demands of the 21st century classroom with creative and innovative teaching in the K-12 art room.

2. Strengthen art studio courses by a minimum of 6 hours to provide art education students with more in-depth experience in technique and specific studio practice. The additional hours in studio make the degree similar to the B.A. in Studio. The additional studio courses will enhance the practice of making art that directly correlates to their student teaching and later in their K- 12 classroom teaching and better prepares them for the public school art room.

3. The addition of A.S. 490 to the major requirements will provide students with knowledge for career development in art that includes: artists' statements, resume and cover letters, and art marketing.

Please note that the course changes in the Program Change Form are reflected in the 2012-2013 Bulletin.

2. General Education Curriculum for this Program:

The new General Education curriculum is comprised of the equivalent of 30 credit hours of course work. There are, however, some courses that exceed 3 credits & this would result in more than 30 credits in some majors.

- There is no foreign language requirement for the new Gen Ed curriculum.
- There is no General Education Electives requirement.

Please list the courses/credit hours currently used to fulfill the University Studies/General Education curriculum:
45 USP

Please identify below the suggested courses/credit hours to fulfill the General Education curriculum.
