8. Rationale for Change(s): (If rationale involves accreditation requirements, please include specific references to those.)

The faculty of the Kinesiology program in the Department of Kinesiology and Health Promotion is requesting that the undergraduate degree awarded to students completing all requirements in the program (HEPR) be changed from a B.A. to B.S. degree. The rationale for this request is based on several factors:

1. The BS degree programs allow a more in-depth study within the major field and frequently involve additional quantification and/or natural science courses. The requirements of this degree are based in the sciences. In the teacher education option students complete courses in biology (Bio 102, 103), physiology (PGY 206) nutrition (NFS 101), health science (HSM 250) and behavioral science (BSC 331) prior to enrolling in KHP course in exercise physiology (KHP 420G).
2. The majority of the students in the HEPR degree program also complete a degree in KINE. This, as noted in the accompanying application for the BS in KINE degree adds a number of science based courses to the curriculum.
3. Many students seek employment in the physical fitness/health promotion area. The expectation for these students is that they have a comprehensive background in the health and exercise sciences. The BS degree is a competitive advantage for them.
4. Of the 12 benchmark universities that offer a comparable degree 8 offer the B.S., 2 the B.S.Ed and only 2 the B.A. degree (see attached list). Awarding the BS degree will enable us to remain similar to our benchmarks.
5. The BS degree will match with the MS degree currently being offered and the requested BS in KINE.

NOTE: If a student completes the combined KINE and HEPR degree option then KHP 515 is being dropped and KHP 415 is replacing it. This change is being requested under separate documentation. No other changes to the curriculum are being requested at this time. The sole purpose of this request is to change the degree program from a Bachelor of Arts in Education degree to a Bachelor of Science *in Education degree.*

No Changes to the course content are being proposed
