Plan 3, 30 semester hours in astronomy, biology, chemistry, computer science,

Get rid of Plan 3

geology, economics, engineering, drawing, physics, or statistics

Total Hours: 18-21 hours

8. Rationale for Change(s): (If rationale involves accreditation requirements, please include specific references to those requirements.)

Plans 2 and 3 have no consistency to them. The students can get away with taking all 100 level courses if they choose plan 3. In plan 2, a similar situation occurs. Most programs in the Secondary Mathematics Education across the United States require a non-certifiable University Approved Minor.

By requiring a non-certifiable University Approved Minor there will be consistency in the courses the students take as well as an increased knowledge base in a secondary area they are interested in.

Currently in the Bulletin, it is stated: "No certification is awarded with the B.A." In addition to this statement, it will be again noted that this University Approved Minor is non-certifiable.
