14. Rationale for Changes

The proposed program builds upon an initial revision of the program submitted last academic year and provides an even greater coherency, a higher degree of program accountability, and introduces greater rigor aimed at professionalizing majors at an earlier stage in their undergraduate careers. It is more in line with programs offered at our benchmark institutions and modernizes the timing, administration and language of the structure, course offerings and course content.

The faculty believe that this Program Change will allow us to attract more serious, committed students and be more competitive with other benchmark studio programs. We believe serious students will find the structure and clearly labeled content attractive and will experience the benefits of the program coherency for their development as artists. For the same reason, we expect that the program may ultimately attract a higher quality applicant. In both cases, we expect the new curriculum to help increase our retention rates and, gradually, rebuild our enrollments.
