OFFICE OF THE
SENATE COUNCIL

Hi Sheila:

As per your instructions in your email to Rick Sweigard, I am submitting the information you requested regarding the program change for Mechanical Engineering due to the changes in the hours for CHE 105.

- A. Degree name and major: BS in Mechanical Engineering. Mechanical Engineering
- B. Home Academic Department and College. Mechanical Engineering. College of Engineering
- C. Current number of credit hours: 129 Proposed number of credit hours: 130
- D. Date of Internal Approvals: Department: April 25, 2012 College: April 25, 2012.

Our ME411 has just been approved for Arts and Creativity (I learned this yesterday), so we can take out 3 hours from the list. However, we will have to add 3 hours for the graduation writing requirement. In the end, we will still maintain at 130 (up from 129 due to this CHE 105 change).

Regards,
Tim

Dear DUSs,

Below is the memo that Kim sent to Shelia outlining the program change caused by the change in credits for chemistry classes. I suggest that each of you craft a similar memo for your programs. I am not fully convinced that we will not have to complete a program change form for the record but this memo may satisfy the immediate need for approval.

Rick

Subject: Program Change for Chemical Engineering

Hi Sheila:

As per your instructions in your email to Rick Sweigard, I am submitting the information you requested regarding the program change for Chemical Engineering due to the changes in the hours for chemistry courses. Please note that there are no changes to the number of hours due to the fact that CHE 105 is increasing by 1 hour and CHE 231 is decreasing by 1 hour.

- A. Degree name and major: BS in Chemical Engineering. Chemical Engineering
- B. Home Academic Department and College. Chemical Engineering. College of Engineering
- C. Current number of credit hours: 133 Proposed number of credit hours: 133
- D. Date of Internal Approvals: Department: April 25, 2012 College: April 25, 2012.

Please let me know if you need further information regarding this approval.

Thanks
Kim Anderson
