Cross Listing:

Cross-listed course prefix and number: none

Should the cross-listed course(s) also be dropped?: No

Explain, if necessary:

Why is this course being dropped?: This one credit course is focused on the development of oral communication skills. The recent launch of UKCore, and the emphasis on communication, has rendered this course somewhat redundant. In addition to the exposure to oral communication in CIS/WRD 110 and 111, we continue to emphasize technical oral communication in upper-division laboratory courses and in the capstone design course.

Will dropping this course change the requirements for any program?: Yes

If Yes, list the program(s) here: Chemical Engineering

Has the course been taken by a significant number of students in other colleges/depts?: No

If YES, list the colleges/departments:

If YES, what provision has been made for meeting the needs of these students?:

Is this course currently included in the University Studies Program?: No
