Course Information

Date Submitted: 2/6/2014

OFFICE OF THE

Current Prefix and Number: COM - Communication, COM 471 INTRO TO HEALTH COMMUNICATION COUNCIL

Other Course:

Proposed Prefix and Number:

What type of change is being proposed?

Major - Add Distance Learning

Should this course be a UK Core Course? No

1. General Information

- a. Submitted by the College of: COMMUNICATION AND INFORMATION
- b. Department/Division: Communication
- c. Is there a change in 'ownership' of the course? No

If YES, what college/department will offer the course instead: Select...

e. Contact Person

Name: Allison Scott

Email: allison.scott@uky.edu

Phone: 7-3676

Responsible Faculty ID (if different from Contact)

Name:

Email:

Phone:

f. Requested Effective Date

Semester Following Approval: No OR Effective Semester: Spring 2015

2. Designation and Description of Proposed Course

a. Current Distance Learning (DL) Status: Please Add

b. Full Title: INTRODUCTION TO HEALTH COMMUNICATION

Proposed Title: INTRODUCTION TO HEALTH COMMUNICATION

c. Current Transcript Title: INTRO TO HEALTH COMMUNICATION

Proposed Transcript Title:

d. Current Cross-listing: none

Proposed - ADD Cross-listing:

Proposed – REMOVE Cross-listing:

e. Current Meeting Patterns

LECTURE: 3

Proposed Meeting Patterns

LECTURE: 3

f. Current Grading System: ABC Letter Grade Scale

Proposed Grading System: Letter (A, B, C, etc.)

g. Current number of credit hours: 3

Proposed number of credit hours: 3

h. Currently, is this course repeatable for additional credit? No

Proposed to be repeatable for additional credit? No

If Yes: Maximum number of credit hours:

If Yes: Will this course allow multiple registrations during the same semester? No

2i. Current Course Description for Bulletin: This course examines theory and research relevant to health communication including interpersonal, organizational, and mass communication approaches. Topics include the role of communication in general models of health and illness, the relationship between patients and healthcare providers, social support, and health campaigns.

Proposed Course Description for Bulletin: This online course examines theory and research relevant to health communication including interpersonal, organizational, and mass communication approaches. Topics include the role of communication in general models of health and illness, the relationship between patients and healthcare providers, social support, and health campaigns.

2j. Current Prerequisites, if any: Prereg: CIS 110, CIS 111.

Proposed Prerequisites, if any: none

2k. Current Supplementary Teaching Component:

Proposed Supplementary Teaching Component: No Change

3. Currently, is this course taught off campus? No

Proposed to be taught off campus? No

If YES, enter the off campus address:

4. Are significant changes in content/student learning outcomes of the course being proposed? No

If YES, explain and offer brief rational:

5a. Are there other depts. and/or pgms that could be affected by the proposed change? No

If YES, identify the depts. and/or pgms:

5b. Will modifying this course result in a new requirement of ANY program? No

If YES, list the program(s) here:

6. Check box if changed to 400G or 500: No

Distance Learning Form

Instructor Name: Allison Scott

Instructor Email: allison.scott@uky.edu

Internet/Web-based: Yes

Interactive Video: No

Hybrid: No

- 1. How does this course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Senate Syllabus Guidelines, specifically the Distance Learning Considerations? Through a combination of recorded lectures and online discussion forums regarding assigned readings, and virtual office hours with the instructor.
- 2.How do you ensure that the experience for a DL student is comparable to that of a classroom-based student's experience? Aspects to explore: textbooks, course goals, assessment of student learning outcomes, etc. This course will have the same assigned readings as the traditional COM 471 class already on the books. The online version will have recorded lectures in conjunction with online group and classroom forum discussions as well as virtual office hours with the instructor. Course goals and student learning outcomes are the same for the online course as for the traditional 471 course taught regularly in standard classroom format. Assessment will be through exams and papers submitted via Blackboard.
- 3. How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites; academic offense policy; etc. The academic offense policy will be the same as the University policy already in place. Blackboard will be used as the portal for the entire course, which is password protected. All materials will be uploaded, stored, and accessible via Blackboard. Grades will be recorded in blackboard which will provide students with timely access to their standing in the course.
- 4. Will offering this course via DL result in at least 25% or at least 50% (based on total credit hours required for completion) of a degree program being offered via any form of DL, as defined above? NO
- If yes, which percentage, and which program(s)? Communication BA, Health Communication Track, 7% (3 hours out of 42) required. COM 471 online or traditional classroom format will fulfill this requirement.
- 5. How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting? Via online office hours and the services provided by the UK Distance Learning Office.
- 6. How do course requirements ensure that students make appropriate use of learning resources? Through assigned readings

- 7.Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program. Through Blackboard. No other facilities other than access to the UK Libraries will be required, and online access to that is already available for students currently enrolled.
- 8. How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or receipt of the course, such as the Information Technology Customer Service Center (http://www.uky.edu/UKIT/)? Yes, students will be given the contact information of the instructor, distance learning assistance, and blackboard assistance, as well as the UK information technology customer service center.
- 9. Will the course be delivered via services available through the Distance Learning Program (DLP) and the Academic Technology Group (ATL)? NO

If no, explain how student enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology. Through Blackboard, which has extensive tutorials available to students for those not already familiar with the service at UK.

- 10.Does the syllabus contain all the required components? YES
- 11.I, the instructor of record, have read and understood all of the university-level statements regarding DL.

Submit as New Proposal Save Current Changes

Esee comment description regarding minor course change. Minor changes are sent directly from dean's office to Senate Council Chair. If Chair deems the change as "n form will be sent to appropriate academic Council for normal processing and contact person is informed.

ECourses are typically made effective for the semester following approval. No course will be made effective until all approvals are received.

 $^{{}^{\}boxtimes}$ Signature of the chair of the cross-listing department is required on the Signature Routing Log.

⁽⁴⁾ Removing a cross-fisting does not drop the other course – it merely unlinks the two courses.

Generally, undergrad courses are developed such that one semester hr of credit represents 1 hr of classroom meeting per wk for a semester, exclusive of any lab me meeting generally represents at least two hrs per wk for a semester for 1 credit hour. (See SR 5.2.1.)

¹⁴¹ You must also submit the Distance Learning Form in order for the course to be considered for DL delivery.

 $^{^{\}mbox{\tiny IM}}$ In order to change a program, a program change form must also be submitted.

COM 471: HEALTH COMMUNICATION

Professor:

Allison Scott, Ph.D.

Office address:

236 Grehan Building

Contact:

Allison.Scott@uky.edu, 859-257-3676

Online office hours: Tuesday 1-3p, Wednesday 11-1p

Department:

Communication

College:

Communication and Information

Course description:

This course examines theory and research relevant to health communication including interpersonal, organizational, and mass communication approaches. Topics include the role of communication in general models of health and illness, the relationship between patients and healthcare providers, social support, and health campaigns. The prerequisites for this course are: CIS 110 and CIS 111.

Student learning outcomes: After completing this course, you will be equipped to (a) analyze how messages from interpersonal and media sources affect health beliefs and behaviors, (b) evaluate the quality of communication in health and illness contexts, (c) apply this knowledge to become a more active participant in your own health care, and (d) prepare an application for any number of the diverse career opportunities available to health communication professionals.

Required text: Harrington, N. G. (Ed.) (2014). Health communication: Theory, method, and application. New York: Routledge.

Required technology: Please complete the following steps to make sure your computer is correctly configured to participate in this course.

- (1) Firefox is the recommended Internet browser for this course. To download a free version of Firefox, visit https://download.uky.edu/.
- (2) You will also need Flash, Adobe Acrobat Reader and QuickTime movie player. To download, visit http://wiki.uky.edu/blackboard/Wiki%20Pages/Browser%20Check.aspx
- (3) Please use Microsoft Word for all written work and Microsoft PowerPoint for presentational aids that accompany your oral presentations.
- (4) You are responsible for checking their UK email account frequently and consistently (at least once per day) to remain current with university-and class-related information. Be sure that you carefully manage your email storage quota to ensure that your mailboxes are able to receive new messages. I will make every effort to respond to email messages within 24 hours during the week and within 48 hours during the weekend.

Important UK technological contacts:

Help Desk at 218-HELP (4357)

Distance Learning Programs Office: 859-257-3377

Distance Learning Services, Carla Cantagallo, DL Librarian: 859-257-0500, ext. 2171; or 800-828-0439 (option#6); dllservice@email.uky.edu

Procedure for Resolving Technical Complaints: If you experience technical difficulties, you may contact the Customer Service Center at 859-218-HELP or by email at helpdesk@uky.edu. Please don't hesitate to inform me with technical difficulties.

Time Zone: This course is taught in the Eastern Time Zone. All times listed in this syllabus are ET. If you live outside the ET, you need to account for the time change when turning in assignments.

Course policies:

Level of difficulty. This is an advanced course, so expect to be challenged. Given the size of the class, most material will necessarily be presented in lecture format, but some of our time will be spent in responding to online discussion questions. For this course to be successful, and for you to optimally benefit from enrollment, you will need to complete the assigned reading <u>before</u> viewing the lecture. I expect you to be well-prepared to make thoughtful, respectful contributions to online class discussion.

Attendance. You are responsible for all information presented in class (a great deal of which will be material that is not readily available elsewhere), and the best way to ensure your preparedness for examinations and written work is to regularly check the Blackboard website for updated course material. I encourage you to treat this course with the same attention to time management that you would use in a face-to-face course. Stay current with the reading assignments, and be sure to regularly watch the recorded lectures online. Staying on top of your coursework and not falling behind is one of the best ways to ensure your success in this course.

Meeting deadlines. By definition, late work is below average. Late work not only creates logistical difficulty for me, but it is unfair to those students who completed the work on time. For these reasons, any late work will incur a penalty of 10% deduction for each day it is late (including weekends). Make-up exams will not be given except under extenuating circumstances with satisfactory documentation (as defined by the UK Student Code 5.2.4). If such a situation arises, please contact me as soon as possible. Contacting me sooner rather than later helps your credibility and gives me more flexibility.

Submitting written work. I will post all assignments on Blackboard. All of your work in this class must be available to be posted both on Blackboard. All written assignments should follow 6th edition APA style formatting. Files must be saved as a .pdf, or .doc, or .docx. Please do not email me your assignments. You are responsible for keeping back-up copies of your work since technology is not infallible. Copies of work can be saved in the "Content Collection" area of your Blackboard account. If your assignment is lost in cyberspace, you will be expected you to recover it by the deadline.

Academic integrity. Per university policy, students shall not plagiarize, cheat, or falsify or misuse academic records. Students are expected to adhere to University policy on cheating and plagiarism in all courses. The minimum penalty for a first offense is a zero on the assignment on which the offense occurred. If the offense is considered severe or the student has other academic offenses on their record, more serious penalties, up to suspension from the university may be imposed. Plagiarism and cheating are serious breaches of academic conduct. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: http://www.uky.edu/Ombud. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.

Part II of Student Rights and Responsibilities (available online at http://www.uky.edu/StudentAffairs/Code/part2.html) states that all academic work, written or

otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about the question of plagiarism involving their own work, they are obliged to consult their instructors on the matter before submission. When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording or anything else from another source without appropriate acknowledgement of the fact, the students are guilty of plagiarism. Plagiarism includes reproducing someone else's work, whether it be a published article, chapter of a book, a paper from a friend or some file, or something similar to this. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work which a student submits as his/her own, whoever that other person may be. Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone. When a student's assignment involves research in outside sources of information, the student must carefully acknowledge exactly what, where and how he/she employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas which are so generally and freely circulated as to be a part of the public domain (Section 6.3.1).

Classroom civility. We want to build a classroom climate that is comfortable for all. In a communication class, it is especially important that we display respect for all members of the classroom, and avoid language that could marginalize members of our classroom or campus. In addition, I encourage you to treat your email exchanges with me as professional correspondence; this means (at a minimum) using capitalization, punctuation, and complete sentences. Additionally, remember that electronic communication should be treated with the same care and respect that you would a face-to-face interaction. Compose e-mail carefully, using a pertinent subject line (including your section number), an appropriate greeting and a concise message devoid of spelling or grammatical errors.

Privacy. The Family Educational Rights and Privacy Act ensures that your student records (for any students over 18 years of age) are kept confidential. I will not release your grades to anyone other than you or school officials who are given permission to view your progress. Anyone other than you (or an approved school official) may not request any information (beyond simple directory information) about you, your progress, or your status as a student in my class. This includes parents, partners, and other students (see: http://www.uky.edu/registrar/obligation-privacy)

Accommodations due to disability. If you have a documented disability that requires academic accommodations, please contact me as soon as possible during scheduled office hours. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (Room 2, Alumni Gym, 257-2754, email address: jkarnes@email.uky.edu) for coordination of campus disability services available to students with disabilities.

Appointments and office hours. Although I plan to be in my office during posted office hours, I occasionally step out to speak with colleagues, hold group conversations in larger spaces, or to work in nearby computing locations. Therefore, it is important that you always email me when requesting an appointment or inform me that you will be coming to office hours. This is particularly helpful during busy times in the semester when many students plan to visit office hours and is a policy meant to benefit students and myself by making the most efficient use of our time.

Furthermore, appointments and meetings are a privilege that should not be abused, please come prepared with materials and questions to ask prior to meeting with me.

Midterm. Midterm grades will be posted in myUK by the deadline established in the Academic Calendar (http://www.uky.edu/Registrar/AcademicCalendar.htm)

Course grading:

In this course, the following grading scale will be utilized: A = 90-100, B = 80-89, C = 70-79, D = 60-69, and E = 59 and below. The grade you earn in this course is based on three exams, three written assignments, participation, and a final project.

Exams. There will be three exams. Each exam is worth 20% of your final grade. Any course material presented in any form (e.g., lecture, readings, class discussion) may be covered in the exams. Exams may combine multiple choice, matching, true/false, and short answer items. There is no final exam in this course. Exams will be completed electronically on Blackboard.

Essay assignments. There will be three short essay assignments throughout the course of the semester. Each essay is worth 5% of your final grade. For each assignment, please prepare a 3-4 page report (not including title page and references). Your work will be evaluated based on quality of style and content. To earn full credit, assignments must be grammatically sound and demonstrate that you have engaged the topic beyond a superficial level. APA style is required for all assignments.

Discussion boards. There will also be ample opportunity for class discussion through discussion boards. All students will participate in cooperative activities via the discussion board as they work through each topic. Students must participate in these discussion activities a minimum of two times (post and respond) during a topic period (discussion posts are due by 11:59pm of the date of the topic). Each discussion response will be graded separately and an overall grade for participation will be based on the average grade. The average discussion grade is worth 5% of your final grade. Your class participation will be assessed based on the quality, not the quantity, of your contribution to class discussions:

- 4 Exceptional thoughtful post(s) and responses across multiple days
- 3 Professional thoughtful post(s) and responses on single day
- 2 Marginal superficial post(s) and responses across multiple days
- 1 Unacceptable/Inappropriate superficial post(s) and responses on single day
- 0 No participation

Final project. The final project requires students to select a health communication career of interest and create an application portfolio based on research relevant to that profession. The final project is worth 20% of your final grade. There are many ways that you could use the knowledge and skill you've gained in this course in your future career. Even if you are not planning to take a job related to health communication, the practice of preparing an application can be very valuable. In the final project for this course, you are invited to develop a career portfolio for a job of your choice in health communication. When selecting your job, keep the following in mind: You need to choose (a) a specific job (i.e., a real one), not just an organization, and include the current job advertisement in your portfolio; and (b) a job for which you are a qualified applicant (e.g., B.A./B.S. required, entrylevel).

Your portfolio should include the following four components: (a) cover letter (1 page), which should appear first in your portfolio, but you will likely write it last. It should include a statement indicating your intention to apply for the specific position you have chosen, explain why you are interested in this particular job, and describe why you would be a good fit for the organization you are applying to. Be sure to describe your relevant skills and experience using concrete examples, and remember to frame the letter in terms of what you bring to the organization, not what the organization can do for you; (b) description of professional career goals (2-3 pages) in which you summarize your professional career goals and personal values: What are the guiding principles that drive you? What are your talents? In what type of work environment do you thrive? Where do you see yourself in ten years?; (c) analysis of the fit between your goals and the job (2-3 pages) which provides background information on the hiring organization and specific job to which you are applying: What is its history? How is it organized? What are the specific job responsibilities you would fulfill? Tie your professional and personal goals to the specific job you are applying for. How would the responsibilities listed in the job posting be a good fit for you? What interests you in this position? What courses have you taken in preparation? Do you have any relevant previous experience?

Schedule:

Date	Unit	Topic	Reading / Due
Jan. 16	Introduction	Course introduction	
Jan. 21	Introduction	Defining health communication	Chapter 1
Jan. 23	Interpersonal	Patient influences on healthcare	Chapter 2
