- 1. How does this course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Senate Syllabus Guidelines, specifically the Distance Learning Considerations? Interaction provided bi-weekly via Adobe Connect and all weeks of course offering through the Blackboard LMS. Virtual office hours as well as JIT assistance from the Instructor also available to students in this course
- 2. How do you ensure that the experience for a DL student is comparable to that of a classroom-based student's experience? Aspects to explore: textbooks, course goals, assessment of student learning outcomes, etc. Students in the online offering of this course have the same access to the Instructor that have F2F students (via virtual office hrs and indivivualized consultations before and after Adobe Course video conferencing. Course goals, texts and assessments via project-based and individual papers are the same as in the F2F version of this course. In fact, in my experience, the online students' discussions and blog interaction are superior to those they experience in F2F classes where time and space limit potential interaction among students and with the instructor.
- 3. How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites; academic offense policy; etc. The Blackboard and Adobe Connect course deliver y tools are password protected. Coursework is project based and on-site proctoring not required. Information regarding plagiarism and academic offenses are contained in the course syllabus.
- 4. Will offering this course via DL result in at least 25% or at least 50% (based on total credit hours required for completion) of a degree program being offered via any form of DL, as defined above? NO

If yes, which percentage, and which program(s)? N/A

5. How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting? Students in the online offering of this course have the same access to the Instructor that have F2F students (via virtual office hrs and indivivdualized consultations before and after Adobe Course video conferencing. Course goals, texts and assessments via project-based and individual papers are the same as in the F2F version of this course. In fact, in my experience, the online students' discussions and blog interaction are superior to those they experience in F2F classes where time and space limit potential interaction among students and with the instructor.

- 6.How do course requirements ensure that students make appropriate use of learning resources? Library services through the DL librarian and services such as Disability Support are available online and through phone contacts for any students needing access to such services. Direction to these services are contained using the required University Senate Language for DL classes in the syllabus.
- 7.Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program. As in all distance learning classes, information regarding minimum technology requirements are provided in the syllabus. Students are directed to Adobe Connect and other technology resource information in the syllabus and the instructor and IT services are available to assist students in obtaining and maintaining access. Students are responsible for connectivity and computer technology needed for the course, as end users.
- 8.How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or receipt of the course, such as the Information Technology Customer Service Center (http://www.uky.edu/UKIT/)? Options for Technical Support are available on the syllabus and verbally pointed out to students during the Introductory Digital video link (via Adobe Connect) sent to students. Also, the instructor is available to direct and assist students with accessing CELT or UK IT for individual specific problems.
- 9. Will the course be delivered via services available through the Distance Learning Program (DLP) and the Academic Technology Group (ATL)? YES

If no, explain how student enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology. N/A

- 10. Does the syllabus contain all the required components? YES
- 11.I, the instructor of record, have read and understood all of the university-level statements regarding DL.

Course Description

A mixed methodology conceptual framework is used to examine various approaches for designing, implementing and analyzing practitioner data generated in a variety of instructional contexts. Topics include epistemological, methodological and ethical issues involved in action research and mixed methods curriculum inquiry.

If you have special needs or require accommodations of any kind, you must register with the UK Disability Resource Center (Mr. Jake Karnes, 257-2754) that certifies need on an individual basis and please let me know about your situation after the first class. PLEASE SEE THE FULL UK DISABILITY POLICY BELOW

Standards

Course materials, activities and assessments are consonant with indicators and benchmarks contained in the Kentucky Teacher Standards (in particular IV (Assessment), V (Reflection), VI (Collaboration) and those promulgated by INTASC (Interstate New Teacher Assessment Consortium) for National Board Certified Teachers.

Academic honesty is expected in graduate work. Plagiarism and other forms of cheating are absolutely unacceptable. You may not use a paper or project that has previously been used in another class to satisfy coursework in this class, this practice is termed "self-plagiarism" and is unacceptable. Should you plagiarize, no grades will be issued and your situation will be reported. PLEASE SEE THE FULL POLICY BELOW.

College Conceptual Framework: Research, Reflection, Learning, Leading

Students in this course will demonstrate dispositions that characterize the conceptual framework of the college of education. The conceptual framework for the professional education unit at the

University of Kentucky is guided by the theme, *Research and Reflection for Learning and Leading*. This theme is aligned closely with both the institutional vision and mission of UK and the vision and mission of the professional education unit. The theme reflects and guides how we approach preparation of professional educators within the context of a research extensive, land grant university.

Course Outcomes and Accompanying Assessments

Learning Outcomes	Evaluation/Assessment (Descriptions of these assessments below)

REQUIRED UNIVERSITY OF KENTUCKY POLICY NOTIFICATIONS

Excused Absences

Students need to notify the professor of absences prior to class when possible. S.R. 5.2.4.2 defines the following as acceptable reasons for excused absences: (a) serious illness, (b) illness or death of family member, (c) University-related trips, (d) major religious holidays, and (e) other circumstances found to fit "reasonable cause for nonattendance" by the professor.

Students anticipating an absence for a major religious holiday are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays no later than the last day in the semester to add a class. Information regarding dates of major religious holidays may be obtained through the religious liaison, Mr. Jake Karnes (859-257-2754).

Students are expected to withdraw from the class if more than 20% of the classes scheduled for the semester are missed (excused or unexcused) per university policy.

Verification of Absences

Students may be asked to verify their absences in order for them to be considered excused. Senate Rule 5.2.4.2 states that faculty have the right to request "appropriate verification" when students claim an excused absence because of illness or death in the family. Appropriate notification of absences due to university-related trips is required prior to the absence.

Academic Integrity

Per university policy, students shall not plagiarize, cheat, or falsify or misuse academic records. Students are expected to adhere to University policy on cheating and plagiarism in all courses. The minimum penalty for a first offense is a zero on the assignment on which the offense occurred. If the offense is considered severe or the student has other academic offenses on their record, more serious penalties, up to suspension from the university may be imposed.

Plagiarism and cheating are serious breaches of academic conduct. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: http://www.uky.edu/Ombud. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.

Part II of *Student Rights and Responsibilities* (available online http://www.uky.edu/StudentAffairs/Code/part2.html) states that all academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about the question of plagiarism involving their own work, they are obliged to consult their instructors on the matter before submission.

When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording or anything else from another source without appropriate acknowledgement of the fact, the students are guilty of plagiarism. Plagiarism includes reproducing someone else's work, whether it be a published article, chapter of a book, a paper from a friend or some file, or something similar to this. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work which a student submits as his/her own, whoever that other person may be.

Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone. When a student's assignment involves research in outside sources of information, the student must carefully acknowledge exactly what, where and how he/she employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas which are so generally and freely circulated as to be a part of the public domain (Section 6.3.1).

Please note: Any assignment you turn in may be submitted to an electronic database to check for plagiarism.

Accommodations due to disability

If you have a documented disability that requires academic accommodations, please see me as soon as possible during scheduled office hours. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (Room 2, Alumni Gym, 257-2754, email address: jkarnes@email.uky.edu) for coordination of campus disability services available to students with disabilities.

This theme is aligned closely with both the institutional vision and mission of UK and the vision and mission of the professional

education unit. The theme reflects and guides how we approach preparation of professional educators within the context of a research extensive, land grant university.

Course Outcomes

- Students will demonstrate knowledge of epistemological, methodological and ethical issues associated with the mixed-methodology research paradigm through analytic papers based on course readings, the development of an action research proposal and finally, data collection and analysis.
- Students will become familiar with various approaches for data collection in classrooms or other instructional settings.
- Students will complete the online CITI course required by the University of Kentucky's Office of Research Integrity to conduct human subject research.
- Students will critique examples of mixed-methodology research through analytic papers and online discussions
- Students will work with peer-partners to develop dispositions toward collegial critique and research discourse.
- Students will submit the results of their research to an appropriate professional or scholarly journal.

Objectives

Upon completion of this course students are expected to

- 1) Identify and use mixed methods to design, implement and analyze in an action research or other scholarly research project in their instructional setting or context.
- 2) Select appropriate qualitative or quantitative methods to answer their research question.
- 3) Understand the legal and practical requirements of ethical research involving human subjects.
- 4) Demonstrate their understandings of course content by producing a research project design and completing a Protocol application for a full or expedited human subjects review by the Institutional Review Board at the University of Kentucky (IRB).
- 5) Critique mixed methods approaches and demonstrate understanding of research designs through analytic papers and online discussions of published mixed methods peer reviewed studies and/or completed mixed methods dissertations.
