- 1. How does this course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Senate Syllabus Guidelines, specifically the Distance Learning Considerations?
- 2. How do you ensure that the experience for a DL student is comparable to that of a classroom-based student's experience? Aspects to explore: textbooks, course goals, assessment of student learning outcomes, etc.
- 3. How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites; academic offense policy; etc.
- 4. Will offering this course via DL result in at least 25% or at least 50% (based on total credit hours required for completion) of a degree program being offered via any form of DL, as defined above?

If yes, which percentage, and which program(s)?

- 5. How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting?
- 6. How do course requirements ensure that students make appropriate use of learning resources?
- 7.Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program.
- 8. How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or receipt of the course, such as the Information Technology Customer Service Center (http://www.uky.edu/UKIT/)?
- 9. Will the course be delivered via services available through the Distance Learning Program (DLP) and the Academic Technology Group (ATL)? NO

If no, explain how student enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology.

- 10.Does the syllabus contain all the required components? NO
- 11.I, the instructor of record, have read and understood all of the university-level statements regarding DL.

See comment description regarding minor course change. Minor changes are sent directly from dean's office to Senate Council Chair. If Chair deems the change as "not minor," the form will tappropriate academic Council for normal processing and contact person is informed.

Scourses are typically made effective for the semester following approval. No course will be made effective until all approvals are received.

Signature of the chair of the cross-listing department is required on the Signature Routling Log.

Removing a cross-listing does not drop the other course — if merely unlinks the two courses.

Generally, undergrad courses are developed such that one semester hr of credit represents 1 hr of classroom meeting per wk for a semester, exclusive of any lab meeting. Lab meeting gene least two hrs per wk for a semester for 1 credit hour. (See SR 5.2.1.)

You must also submit the Distance Learning Form in order for the course to be considered for DL delivery.

In order to change a program, a program change form must also be submitted.

Course Description

Textbook: None. Readings and Cases to be provided by instructor.

I. Rationale:

This is a **seminar* class** that is intended to help you review and apply the principles of hospitality (specifically lodging) and tourism learned in pre-requisite courses from a "big picture" perspective. Theory and principles will be applied to decision-making in the hospitality and tourism industry while emphasizing features and characteristics of the industry. Current issues of relevance pertaining to the industry will be discussed to highlight their importance to the industry. Prerequisites: HMT 120, HMT 210, HMT 270, MKT 300, MGT 301. For Hospitality Management and Tourism majors only.

*Definition of seminar: a small group of students, as in a university, engaged in advanced study and original research under a member of the faculty and meeting regularly to exchange information and hold discussions (Dictionary.com)

II. Learning Objectives:

Theory and Concepts

Upon completion of the course, I hope you will be able to:

- Develop a deeper understanding of some current issues in hospitality and tourism management.
- Improve your critical thinking and analysis capability.
- Enhance your presentation/public speaking skills by being as a class leaders of your assigned topic.

III. Format for the Course:

Your learning experiences for this course will be accomplished through 4 main ways: 1. Class Participation; 2. Group Article Analysis, 3. Midterm exam and 4. A semester project.

a. Participation (20%):

Participation is based on attendance and your answers to article discussion questions.

b. Group Article Analysis (30%):

Please form a group of 4 individuals. For each article, one member of your team will serve in the role of group leader, which involves assuring preparation of the written slides for the two articles and leading the discussion of the group. Please indicate on the article write-up which group member(s) are the leaders for the presentation.

The leader(s) will meet/communicate with me at least one week in advance of their first presentation with a list of proposed discussion questions which will form the basis for class discussion. These questions will then be distributed to the rest of the class in advance. Class members **must** prepare answers to the discussion questions (generally at least a page in length), and these answers will form the basis for our class discussion. All answers MUST be professionally typed and turned in after each class for grading. NO LATE TURN-INS WILL BE GRADED.

Your group will prepare a maximum OF 10 PowerPoint SLIDES addressing the following issues pertaining to the topics:

- 1. Summarize the main points of the article 1 paragraph
- 2. What problem is the author(s) trying to address the purpose of study
- 3. Why is it a problem? –give a background to the issue
- 4. Cite and summarize at least **3 additional research (not on-line opinions)** articles relating to this issue that was **not** cited in the current article. State who, what and what they found out (results).

- 5. The implications/benefits for the industry so what?
- 6. What have you learned from this article? i.e., elaborate on the value of the information presented and give 5 reasons how this information can help someone/organization in the industry to become better in the business.
- c. Midterm Exam: (30%):
- d. Semester project (20%): Forthcoming

EVALUATION: The Evaluation for this course will consist of:

1. Class Participation Scores

Class participation will be evaluated based on attendance and participation in class discussions. Unexcused absences will result in a loss of participation grade. Students who are not presenting on a particular date are expected to come to class prepared and will be evaluated on contributions made to class discussions. Specifically, each presentation student will be evaluated on:

- Appearance
- Audibility
- Quality of Presentation- demonstration of thorough understanding of the content being presented,
 quality & quantity of work, Attitude, Initiative & Organization

Total	1000 points	100%
Semester Project	200 points	20%
Midterm Exam	300 points	30%
Group Article Analysis	300 points	30%
Discussion Participation	200 points	20%

A = 900-1000; B = 800-899; C = 700-799; D = 600-699; E = below 600 points

<u>Bonus Points:</u> The instructor reserves the right to award up to 30 bonus points to students that make significant contributions to the success of this class. These points will be awarded to persons who frequently participate in class discussions, introduce interesting materials or other course related information in class. These points will be awarded at the end of the semester at the discretion of the instructor

Class Technology Policy

<u>Use of computers (including laptops), cell phones or text messaging when the class is in</u>
<u>session is prohibited.</u> Failure to comply will result in written warnings and reductions in grade.
Continued abuse will result in student failing the course.

Statement on Academic Dishonesty:

The University of Kentucky does not tolerate dishonesty in any form. Academic dishonesty is an intentional misrepresentation to gain undeserved advantage by cheating, plagiarism or unauthorized possession of exams. Please read, understand and adhere to the Student Rights and Responsibilities document located on the University of Kentucky website: www.uky.edu/StudentAffairs/Code/.

As senior level students you are expected to abide by the University's Code of Academic Integrity. Any individual work submitted by a student in this course for academic credit will be the student's own work. If you use material from another source you must provide a citation or you have committed plagiarism. If the material is a direct quotation, you must also put it in quotations.

Blackboard Access Required:

a. All learning notes, announcements, assignments, etc. will be posted on Blackboard. Be sure to check Blackboard daily and if you do not, you may not receive important information that can affect your grade.

CLASS POLICIES

Attendance

You are expected to attend class. Students need to notify me of absences prior to class when possible. S.R. 5.2.4.2 defines the following as acceptable reasons for excused absences: (a) serious illness, (b) illness or death of family member, (c) University-related trips, (d) major religious holidays, and (e) other circumstances found to fit "reasonable cause for nonattendance" by the professor. Students anticipating an absence for a major religious holiday are responsible for notifying me in writing of anticipated absences due to observance of such holidays no later than the last day in the semester to add a class. Information regarding dates of major religious holidays may be obtained through the religious liaison, Mr. Jake Karnes (859-257-2754).

Students may be asked to verify their absences in order for them to be considered excused. Senate Rule 5.2.4.2 states that faculty have the right to request "appropriate verification" when students claim an excused absence because of illness or death in the family. Appropriate notification of absences due to university-related trips is required prior to the absence. Students must notify me of their absence prior to the absence or within one week after the absence. Students must submit any written documentation supporting their excused absence within one week after the absence.

You will not be given the chance to make up missed points unless you are absent for a reason listed at http://www.uky.edu/StudentAffairs/Code/Section%20V.pdf. Assignments will be due most class days. Therefore, missing class will negatively affect your grade. Students are expected to withdraw from the class if more than 20% of the classes scheduled for the semester are missed (excused or unexcused) per university policy. That number for this course is six classes.

Make-up Work and Late Assignments

In the event of an excused absence, I will give assistance to any student wishing to make up work from that day. However, initiative to get notes, handouts, and assignments is your responsibility. No make-up exams will be given for unexcused absences. You need to make up any missed work within one week of your excused absence.

Assignments are due at the beginning of class, or as indicated on individual coursework. Assignments turned in after the specified due date and time will receive an automatic deduction of 15 percent. If not turned in within three calendar days of the due date, no credit will be given for the assignment. If you have an excused absence on a day when an assignment is due, you must make arrangements with me before the assigned due date regarding when you may turn in your assignment. When in doubt, communicate.

Technology

Laptops, tablets, and other large computer devices are not allowed to be used during class. Lecture

notes should be taken on paper. PowerPoint presentations will be available on Blackboard before class, in most cases.

Academic Integrity

Per university policy, students shall not plagiarize, cheat, or falsify or misuse academic records. Students are expected to adhere to University policy on cheating and plagiarism in all courses. The minimum penalty for a first offense is a zero on the assignment on which the offense occurred. If the offense is considered severe or the student has other academic offenses on their record, more serious penalties, up to suspension from the university may be imposed.

Plagiarism and cheating are serious breaches of academic conduct. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: http://www.uky.edu/Ombud. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.

Part II of Student Rights and Responsibilities (available online

http://www.uky.edu/StudentAffairs/Code/part2.html) states that all academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about the question of plagiarism involving their own work, they are obliged to consult their instructors on the matter before submission.

When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording or anything else from another source without appropriate acknowledgement of the fact, the students are guilty of plagiarism. Plagiarism includes reproducing someone else's work, whether it be a published article, chapter of a book, a paper from a friend or some file, or something similar to this. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work which a student submits as his/her own, whoever that other person may be. Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone. When a student's assignment involves research in outside sources of information, the student must carefully acknowledge exactly what, where and how he/she employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas which are so generally and freely circulated as to be a part of the public domain (Section 6.3.1). Please note that any assignment you turn in may be submitted to an electronic database to check for plagiarism.

Academic Accommodations

If you have a documented disability that requires academic accommodations, please see me as soon as possible. In order to receive accommodations in this course, you must provide a Letter of Accommodation from the Disability Resource Center.

FORMAT FOR THE COURSE:

Your learning experiences for this course will be accomplished through 4 main ways: 1) Class Participation; 2) Group Article Analysis; 3) Midterm exam and 4) A semester project.

A. Participation:

Participation is based on attendance and your answers to article discussion questions.

B. Group Article Analysis:

Please form a group of 4 individuals. For each article, one member of your team will serve in the role of group leader, which involves assuring preparation of the written slides for the two articles and leading the discussion of the group. Please indicate on the article write-up which group member(s) are the leaders for the presentation. The leader(s) will meet /communicate with me at least one week in advance of their first presentation with a list of proposed discussion questions which will form the basis for class discussion. These questions will then be distributed to the rest of the class in advance. Class members **must** prepare answers to the discussion questions (generally at least a page in length), and these answers will form the basis for our class discussion. All answers MUST be professionally typed and turned in after each class for grading. NO LATE TURN-INS WILL BE GRADED.

Your group will prepare a maximum OF 10 PowerPoint SLIDES addressing the following issues pertaining to the topics:

1. Summarize the main points of the article – 1 paragraph

2. What problem is the author(s) trying to address – the purpose of study

3. Why is it a problem? –give a background to the issue

- 4. Cite and summarize at least 3 additional research (not on-line opinions) articles relating to this issue that was **not** cited in the current article. State who, what and what they found out (Results).
- 5. The implications/benefits for the industry so what?
- 6. What have you learned from this article? i.e., elaborate on the value of the information presented and give 5 reasons how this information can help someone/organization in the industry to become better in the business.

Class Participation Scores

The following grading scale will be used to determine final grades for undergraduate Students: Class participation will be evaluated based on attendance and participation in class discussions.

Unexcused absences will result in a loss of participation grade. Students who are not presenting on a particular date are expected to come to class prepared and will be evaluated on contributions made to class discussions.

UNDERGRADUATE REQUIREMENTS

Total Undergraduate	800 points
Semester Project	200 points
Midterm Exam	300 points
Group Article Analysis	200 points
Discussion Participation	100 points

GRADUATE ADDITIONAL REQUIREMENTS

Total for Graduate Students	1,450 points
Additional Research Paper	650 points
Semester Project	200 points
Midterm Exam	300 points
Article Analysis	200 points
Discussion Participation	100 points

Additional Graduate Assignment

Graduate students will be given an additional research paper assignment for this class. It will consist of the completion of a 15-20 page research paper and oral presentation to the class. Specific instructions will be handed out at the 2nd class meeting.

<u>Bonus Points:</u> The instructor reserves the right to award up to 30 bonus points to students that make significant contributions to the success of this class. These points will be awarded to persons who frequently participate in class discussions, introduce interesting materials or other course related information in class. These points will be awarded at the end of the semester at the discretion of the instructor.

Undergraduate Student Grading scale*

A = 720 - 800 points

B = 640 - 719 points

C = 560-639 points

D = 480-559 points
