	If YES:	Will this course allow multiple registrations during the same semester?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
i.	Course Description for Bulletin:	This course examines and applies the principles of information systems analysis. It surveys project management, feasibility and analysis, systems requirement definition and resource allocation. It utilizes a structured systems development methodology that spans the entirety of the information system lifecycle, which starts with the conception of the need for a specific information system and ends with the implementation of that system. The course utilizes a case study approach in which students initiate the analysis and logical design of a limited-scope information system.			
j.	Prerequisites, if any:	IS 202			
k.	Will this course also be offered through Distance Learning?			YES <sup>4</sup> <input checked="" type="checkbox"/>	NO <input type="checkbox"/>

<sup>1</sup> Courses are typically made effective for the semester following approval. No course will be made effective until all approvals are received.

<sup>2</sup> The chair of the cross-listing department must sign off on the Signature Routing Log.

<sup>3</sup> In general, undergraduate courses are developed on the principle that one semester hour of credit represents one hour of classroom meeting per week for a semester, exclusive of any laboratory meeting. Laboratory meeting, generally, represents at least two hours per week for a semester for one credit hour. (from SR 5.2.1)

<sup>4</sup> You must *also* submit the Distance Learning Form in order for the proposed course to be considered for DL delivery.

	If YES, the <i>differentiation for undergraduate and graduate students must be included</i> in the information required in <b>10.b</b> . You must include: (i) identification of additional assignments by the graduate students; and/or (ii) establishment of different grading criteria in the course for graduate students. (See SR 3.1.4.)			
<b>b.</b>	<input type="checkbox"/> The syllabus, including course description, student learning outcomes, and grading policies (and 400G-/500-level grading differentiation if applicable, from <b>10.a</b> above) are attached.			

<sup>5</sup> In order to change a program, a program change form must also be submitted.

## Distance Learning Form

This form must accompany every submission of a new/change course form that requests distance learning delivery. This form may be required when changing a course already approved for DL delivery. **All fields are required!**

Introduction/Definition: For the purposes of the Commission on Colleges Southern Association of Colleges and Schools accreditation review, *distance learning* is defined as a formal educational process in which the majority of the instruction (interaction between students and instructors and among students) in a course occurs when students and instructors are not in the same place. Instruction may be synchronous or asynchronous. A distance learning (DL) course may employ correspondence study, or audio, video, or computer technologies.

A number of specific requirements are listed for DL courses. **The department proposing the change in delivery method is responsible for ensuring that the requirements below are satisfied at the individual course level.** It is the responsibility of the instructor to have read and understood the university-level assurances regarding an equivalent experience for students utilizing DL (available at <http://www.uky.edu/USC/New/forms.htm>).

	Hybrid <input type="checkbox"/>

<b>Curriculum and Instruction</b>	
1.	<p>How does this course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Senate Syllabus Guidelines, specifically the Distance Learning Considerations?</p> <p>Daily interaction will be possible through Blackboard discussion boards and email. Syllabus conforms to Senate guidelines. Syllabus includes statement on timeliness of response to email inquiries.</p>
2.	<p>How do you ensure that the experience for a DL student is comparable to that of a classroom-based student's experience? Aspects to explore: textbooks, course goals, assessment of student learning outcomes, etc.</p> <p>Many items from traditional face to face courses will remain intact for this class including appropriate text and course goals. Assessment will be accomplished through similarly appropriate assignments such as papers, projects and course participation. Additionally, course will make use of online tools such as discussion boards, email, Adobe Connect, Flash video presentations and other communication methods to improve the overall experience.</p>
3.	<p>How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites; academic offense policy; etc.</p> <p>Each student's Blackboard account is tied into their myUK account. Assignments, such as papers, will be handled much the same as they would in a face to face course in terms of being evaluated for possible issues in regards to the academic offense policy. Quizzes and exams will be given via Blackboard and myUK, which require secure password authentication. All exams will consist of random ordering of questions in a category and random ordering of answers for questions, helping to prevent copying from one computer to another. Quizzes and exams will be open book, and timed, to assure that all students have the same opportunities for success. Written work will be read closely for evidence of plagiarism and appropriate tools will be used to check for this. (e.g., SafeAssign).</p>
4.	Will offering this course via DL result in at least 25% or at least 50%* (based on total credit hours required for

Abbreviations: TASC = Teaching and Academic Support Center DL = distance learning DLP = Distance Learning Programs

## Distance Learning Form

This form must accompany every submission of a new/change course form that requests distance learning delivery. This form may be required when changing a course already approved for DL delivery. **All fields are required!**

	<p>completion) of a degree program being offered via any form of DL, as defined above?                  Yes. The School of Library &amp; Information Science is proposing a new undergraduate minor in Information Studies. The entire minor will be available online.</p> <p>If yes, which percentage, and which program(s)?  <i>100%; IS (proposed undergraduate minor)</i></p> <p><i>*As a general rule, if approval of a course for DL delivery results in 50% or more of a program being delivered through DL, the effective date of the course's DL delivery will be six months from the date of approval.</i></p>
5.	<p>How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting?</p> <p>Since our program has long had remote students (primarily around Louisville and northern Kentucky), we have much experience in making student services as accessible as possible. Our program uses a listserv for program announcements and we employ a full-time student affairs officer who regularly communicates with our students, regardless of location. We've also begun a Blackboard organization to further assist in providing student services to remote participants. Additionally, we encourage students to use services such as Distance Learning Library Services when appropriate. We anticipate doing similar things for students in this proposed minor.</p>
<b><i>Library and Learning Resources</i></b>	
6.	<p>How do course requirements ensure that students make appropriate use of learning resources?</p> <p>In order to successfully complete assignments such as class participation, quizzes and projects, students will have to use their textbook, course readings and supplementary materials available through UK Libraries.</p>
7.	<p>Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program.</p> <p>Students will not require access to equipment outside of a personal computer and appropriate software. Students will primarily use the services of UK's Distance Learning, UK Distance Learning Library and electronic access to UK Libraries.</p>
<b><i>Student Services</i></b>	
8.	<p>How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or receipt of the course, such as the Teaching and Academic Support Center (<a href="http://www.uky.edu/TASC/index.php">http://www.uky.edu/TASC/index.php</a>) and the Information Technology Customer Service Center (<a href="http://www.uky.edu/UKIT/">http://www.uky.edu/UKIT/</a>)?</p> <p>Students are informed via the syllabus and given contact information for technical issues.</p>
9.	<p>Will the course be delivered via services available through the Teaching and Academic Support Center?</p> <p>Yes <input checked="" type="checkbox"/></p> <p>No <input type="checkbox"/></p> <p>If no, explain how students enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology.</p>

This course examines and applies the principles of information systems analysis. It surveys project management, feasibility and analysis, systems requirement definition and resource allocation. It utilizes a structured systems development methodology that spans the entirety of the information system lifecycle, which starts with the conception of the need for a specific information system and ends with the implementation of that system. The course utilizes a case study approach in which students initiate the analysis and logical design of a limited-scope information system.

### **Course Goal**

This course is designed to achieve the following goal:

Prepare students to apply the principles of information systems analysis in a team-based environment using project management skills.

### **Learning Outcomes**

In achieving these learning outcomes, students will:

- Describe the importance of the systems analysis and design process
- Identify and model basic business processes and requirements
- Design database structures based on business requirements
- Conceptualize and design basic user interfaces for communicating with systems
- Identify necessary stages and tools of software development for a given system design
- Plan implementation and support strategies for a given system
- Take part and satisfactorily perform in systems analysis and design projects in real world settings

### **Textbooks**

Hoffer, Jeffrey A., George, Joey F. & Valacich, Joseph S. (2007). *Modern Systems Analysis and Design*, 5<sup>th</sup> Ed. Prentice Hall .

Schmidt, Terry. (2009). *Strategic Project Management Made Simple*. John Wiley & Sons.

**Exams and Assignments**

Database selection	Review the 3 major database products—SQL, Oracle, & IBM DB2—and report the comparative strengths and weaknesses for each. Report under what circumstances you would recommend a proprietary database.
Shared IT project failure article	Find an article on IT project failure and share it with the class. Be prepared to discuss your article with the class.
Team project schedule	Create a schedule for your team 's project. Include resources assigned.
Team business process map	Map a business process for one of the processes in the organization. Include swim lanes.
Team UML map	Create a UML diagram for one of the processes in the organization. The process must include interaction with a database.
Team Reports	Team reports on system analysis of selected problem. Must include an introduction, appropriate visualizations, & recommendations.
Individual papers on team project	Individual paper on selected team problem. Must include an introduction, appropriate visualizations, recommendations, conclusion, bibliography, & executive summary.

**Relative Value of Assessments Toward Course Grade:**

Grades will be based on the following exams and assignments:

Assessment	Percentage of Course Grade
Class Attendance & Participation	10%
Database Selection	20%
IT Article Review	5%
Team Project (all phases)	40%
Individual Paper	25%
Total	100%

**Course Grade**

Course grades are assigned according to the following criteria.

Course Grade	Percentage
--------------	------------

A	90% or better
B	80 – 89%
C	70 – 79%
D	60 – 69%
E	Below 60%

## **Policies**

### Attendance and Participation

Though this is a distance learning course, we will rely heavily on class discussion as we discover methods of research and inquiry. You are expected to check the Blackboard site at least twice a week and to be prepared with questions and comments about the readings. Engaged and respectful discussion is necessary for the success of this class. An absence in this class is a week of no activity on Blackboard. Any student who misses more than 1/5 of the class will automatically fail the course.

### Excused Absences and Verification

Please refer to Student Rights and Responsibilities, Part II, Section 5.2.4.2 (<http://www.uky.edu/StudentAffairs/Code/part2.html>) for UK's policy on excused absences. You can request verification for excused absences.

Excused absences include (as defined at the web site above):

- Significant illness of student or serious illness of household member or immediate family
- Death of a household member or immediate family
- Trips for members of student organizations, class excursions or participation in intercollegiate athletic events
- Major religious holidays
- Any other circumstance that the instructor finds reasonable cause for nonattendance

### Academic Accommodations

If you have a documented disability that requires academic accommodations, please see me as soon as possible. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (Room 2, Alumni Gym, 257-2754, [jkarnes@uky.edu](mailto:jkarnes@uky.edu)) for coordination of campus disability services available to students with disabilities. We can then collaborate on the best solution.

### Academic Integrity, Cheating and Plagiarism

You are expected to submit your own original work for all assignments in this course. See the home page for the Office of Academic Ombud Services (<http://www.uky.edu/Ombud>) for a definition of plagiarism, how to avoid plagiarism and UK's new academic offense policy.

Please refer to Student Rights and Responsibilities, Part II, Section 6.3 (<http://www.uky.edu/StudentAffairs/Code/part2.html>) for UK's policy on academic integrity.

## Classroom Behavior, Decorum and Civility

Please be respectful to others in the class and engage in civil discourse when we discuss topics that have a diversity of perspectives. Please help me maintain the most courteous environment by using a little peer pressure if necessary. Thank you.

## **TECHNOLOGY INFORMATION & RESOURCES**

Distance Learning Students are expected to have a minimum level of technological acumen and the availability of technological resources. Students must have regular access a computer with a reliable Internet connection and audio capabilities. Internet Explorer 7 (IE) or Firefox 2.x are the recommended browsers for those using a Windows-based PC. Those using Firefox 3.x may encounter problems with assignment uploads. Those using an Apple computer with MAC OS X (10.5.x) may use Firefox 3.x or Safari 3.x.

Please be certain that your computer and/or browser allow you to view Adobe Reader documents (.pdf). Microsoft Office and other software products are free for students: <http://iweb.uky.edu/MSDownload/>.

As your instructor, I am your first go-to person for technology problems. If you need more immediate assistance, please contact TASC or UKIT.
