SUBJECT: Changes to the International Business Minor

DATE: December 17, 2007

Attached are proposed changes to the International Business Minor. The changes were initiated because the world regional/foreign language concentration no longer exists and students were struggling to find the surviving courses. The goal of this requirement was to provide an opportunity to gain additional cross cultural understanding. The new requirements to complete a course through education abroad, taken an additional USP cross cultural course or a year of foreign language are consistent with this objective. As such, this change simply provides multiple avenues to this end.
