Credit Hour Change
FR: School of Architecture
David Biagi, Director

The School of Architecture approved at its Faculty Meeting, September 11, 2013, to change the following required credit hours needed to earn the Bachelor of Arts in Architecture and Master of Architecture.

Current Total Hours:	Bachelor of Arts in Architecture	133 hours
	Master of Architecture	57 hours
National Architectural Accreditation Board: (NAAB)	Bachelor of Arts in Architecture	120 hours
	Master of Architecture	48 hours
SoA Approved Change:	Bachelor of Arts in Architecture	120 hours
	Master of Architecture	48 hours

Rational:

- University standards for a Bachelor Degree: 120 Hours
- The NAAB specifies the number of credit hours of every professional degrees and curriculum program are to conform.
- The reduction is accomplished at the undergraduate level by changing the number of elective hours required to complete the degree. Previously the thought was to build-in hours to complete a minor. The new changes allow for a minor but the student must add the credit hours to their course load.
- ARC 101 is currently 2 hour course, it will be expanded to a 3 hour course and absorb the content of ARC 102, a 2 hour course, which will be eliminated.
- The reduction is accomplished at the graduate level by reducing the number of free electives student take outside the program.
- This proposal reduces the graduate load from 15 hours a semester to a more typical graduate load, 12 hours.
