3 October 2000

TO: Members, University Senate

FROM: University Senate Council

RE: AGENDA ITEM #1: University Senate Meeting, Monday, 16 October 2000.
Resolution on the siting of the Biomedical/Biological Sciences Research Building.

Resolution:

To: Dr. Charles Wethington

From: The University Senate

Date: Oct. 16, 2000

Dr. Wethington, we urge you to consider the serious negative impact of the proposed Virginia Avenue location on biomedical research at the University of Kentucky and to change the building site to one that is located within the medical center campus.

Please transmit this request to the Board of Trustees.

Thank you.
