Subject: RE: Add'l Change to Senate Rules (#3)

Let's have the Asso Provost for FA issue be more than an editorial update of the Senate Rules, because also it involves a change in the GRs on the University Senate ex officio members.

1. The Senate Council ought to weigh in on whether the new position, and its new responsibilities, is of a nature that the position ought be ex officio voting or ex officio nonvoting in the University Senate. Under the GR IV.A., the University Senate has a status to "recommend" on which administrative officers come to have, or to not have, ex officio voting status in the University Senate.
2. Relatedly, the SC needs to assess which office in the Provost's office (or, some other academic office?) ought be the Chair of the HCCC.
