Dear David,

The attached revision (dated 4-02-10) to AR 2:9 on Lecturer Series Faculty incorporates those changes suggested by Faculty Senators in response to your recent call for feedback. I wish to thank the membership of the GR/AR workgroup (David Randall, Kaveh Tagavi, Marcy Deaton, Connie Ray, Tony Blanton & Joey Payne) for their exemplary work in incorporating those suggested changes into the latest revision of AR 2:9. I also wish to recognize the work of a former workgroup member, Davy Jones, who also provided thoughtful and comprehensive commentary.

I respectfully request that you ask Sheila to distribute both attached documents to the members of the Senate Council in anticipation of today's Senate Council discussion. The attached documents include not only the latest draft of the revised AR but also a summary of the substantive changes to the previous draft in light of the feedback from Senators.

With your permission, I will discuss those substantive changes at today's Senate Council meeting, address any additional concerns and request that the Senate Council membership vote to endorse the revised text and send it with a favorable recommendation on endorsement to the University Senate for consideration and a vote on endorsement at its April 12th meeting.

Thank you.

My best,
Richard
