August 16, 2010

Parallel Senate Council/University Senate Review of Web Transmittals

**Background:** *Senate Rules* require a 10-day review for Senate Council members, followed by another 10-day review by senators. This unnecessarily lengthens the review time for course and program proposals on web transmittals.

Since SC members are Senate members as well, SC members can conduct their 10-day review in parallel with the 10-day review by senators. This modification to the process will shorten the review period from just under a month to a little over a week.

**Recommendation:** *that the Senate Council sustain parallel 10-day reviews of web transmittals for the 2010 – 2011 academic year.*
