Rev 8/07

UNIVERSITY OF KENTUCKY COLLEGE OF NURSING

NUR 631 SYLLABUS (proposal) FALL 2008

COURSE TITLE: NUR 631: Application of Advanced Health Assessment

CREDIT HOURS: 3 semester hours (2 didactic credits and 1 clinical laboratory credit)

PREREQUISITE: Enrollment in graduate program in Nursing or RN-MSN program.

COURSE DESCRIPTION:

This advanced health assessment course offers comprehensive assessment of the individual within the context of the family and community. It includes comprehensive (systematic) history, physical, and psychological assessment of signs and symptoms, pathophysiologic changes, and psychosocial variations of the individual patient. Assessments are performed within the context of developmental, physiological, psychological, cultural, and environmental parameters. Emphasis is placed on developing a thorough understanding of the individual patient and differentiating normal and abnormal findings to determine current health status.

COURSE OBJECTIVES:

At the conclusion of this course, students will be able to:

- 1. Evaluate models for assessing the individual within the context of the family, environment, and community.
- 2. Perform an accurate and culturally-sensitive comprehensive health assessment on individuals across the life span.
- 3. Analyze assessment data to identify risk factors and establish a differential diagnosis.
- 4. Record and communicate assessment findings verbally and in writing to clients and other members of the health promotion/ health care team.
- 5. Incorporate ethical and legal principles into health assessment performance and communication of findings.
- 6. Incorporate evidence-based and research findings into health assessment strategies.

MSN PROGRAM OBJECTIVES REFLECTED IN THIS COURSE:

- Provide advanced practice nursing care consistent with the ANA standards of care and professional performance
- Analyze factors that influence advanced practice nursing, health and health care (including biological, psychological, social, economic, cultural, political, ethical, legal, and geographic factors)
- Collaborate with others to meet the health needs of populations

COURSE FACULTY

Mary DeLetter, PhD, RN, GRADUATE FACULTY OF RECORD

Office: Room 557 CON, (859) 323-6606

E-mail: mcdele01@email.uky.edu

Melanie G. Hardin-Pierce DNP, RN, ARNP-CS, COURSE COORDINATOR

Office: Room 425 CON, (859) 323-5657

E-mail: mhpier00@email.uky.edu

Lynne Jensen, PhD, ARNP, Adult Nurse Practitioner Office: Room 449 CON; Office: 323-5039

E-mail: <u>lajens2@email.uky.edu</u>

Nancy Kloha, MSN, ARNP, Family Nurse Practitioner

Cell phone: (606) 923-1919 E-mail: nrkloh0@uky.edu

Kittye Roberts, MSN, ARNP, Family Nurse Practitioner

Office: Room 421 CON; (859)323-8084

E-mail: krobe3@email.uky.edu

REQUIRED TEXTS:

Bickley, L. S., & Szilagyi, P.G. (2003). Bates' guide to physical examination and history taking (9th ed.). Philadelphia: Lippincott Williams & Wilkins

Coulehan, J.L., & Block, M.R. (2001). The medical interview: Mastering skills for clinical practice (5th. ed.). Philadelphia: F.A. Davis Co.

REQUIRED ON-LINE ACTIVITIES:

Independent Study Modules on Blackboard

Doc.com Interactive Communication Tutorials (http://webcampus.drexelmed.edu/doccom/user/)

RECOMMENDED MATERIALS:

Pocket Guide for Physical Assessment (Pocket Card)

TEACHING/LEARNING METHODS:

This course uses a distributed learning format with class meetings five times per semester. The course is taught with web-enhanced and independent learning and practice activities. Class meetings will primarily involve laboratory practice and demonstration of health assessment competencies. Teaching-learning methods include:

- Independent Bb Modules
- Viewing Bates Tapes (Visual Guides to Physical Examination)
- Doc.com Interactive On-line Communication Tutorials (Drexel University)
- Student Preparation: Reading, Independent Practice
- Supervised Partner Laboratory Practice and Instruction
- Structured Clinical Instructional Modules (SCIMs)

LABORATORY SESSIONS

Laboratory time will be dedicated to the following activities:

- Small group instruction on advanced health assessment techniques
- Practicing health assessment with student partners
- Structured Clinical Instructional Modules (SCIMs)
- Objective Structured Clinical Examination (OSCE)

EVALUATION:

- 25% Video Validation of a Basic Complete Physical Exam
- 25% Evaluating Communication Techniques Assignment
- 25% Participation in On-line Preparation
- 25% Final Examination Objective Structured Clinical Examination (OSCE)

Grading Scale

90 - 100	A
80 - 89	В
70 - 79	C
69 or below	Е

❖ Late assignments, without prior approval of the course faculty, will be penalized 5% per day.

Clinical Course Grade Requirement:

Because this course has a clinical laboratory component, <u>ALL STUDENTS</u> must earn a grade of B or higher to continue in the master's program of study.

Absence Policy

Attendance to class is required and is considered critical to success of this course. Interaction with faculty and peers during class contributes to professional development of the graduate student. Class cannot be missed for work-related scheduling problems. *Full* attendance and participation are required in *each* class meeting.

Excused Absences

- Any excused absences (including the first class meeting) must be approved by the course faculty prior to the class meeting date.
- Students who miss two or more classes with excused absences may be asked to take an "Incomplete" in the course and finish in a future semester.
- Excused absences are defined in Section 5.2.4.2 of the *University of Kentucky Student Code of Conduct* (http://www.uky.edu/StudentAffairs/Code/part2.html). The following are acceptable reasons for excused absences:
 - serious illness
 - illness or death of family member
 - University-related trips;
 - Major religious holidays
 - Other circumstances found to be reasonable cause for nonattendance
- Students who need to miss a laboratory session should notify the course faculty instructor as well as their laboratory partner prior to the laboratory session.
- Students anticipating absence for a major religious holiday must notify instructor in writing prior to the last day for adding a class, Tuesday, August 26, 2008.
 Information regarding dates of major religious holidays may be obtained through

the religious liaison, Mr. Jake Karnes (257-2754).

Unexcused Absences

- Unexcused absence or absence without prior consent of the instructor will result in a reduction of the final course grade and possible failure of the course.
- Class work missed during unexcused absences cannot be made up.
- Students who miss two or more classes (excused or unexcused absences) may be asked to take an "Incomplete" in the course and finish in a later semester.

TEACHER/COURSE EVALUATIONS

The University policy on faculty performance review requires that faculty obtain student evaluations of teaching for every course every semester. To meet the requirement, the College of Nursing uses a web-based course evaluation.

- All students enrolled in this course are required to visit the Course Evaluation website to fill out evaluations or to decline the opportunity within the designated time frame.
- Students who don't visit the website within the designated time will receive an incomplete in the course that will remain until the website is visited.
- Students should take this opportunity to provide serious input regarding faculty performance and course evaluation.

These evaluations are used by the College of Nursing to improve the curriculum and enhance faculty teaching. Evaluations are completely anonymous. The information is compiled and shared with individual faculty members, program directors, associate dean, and dean only after final grades are submitted.

OFFICE OF SERVICES FOR STUDENTS WITH DISABILITIES:

If there is any student in this class who is in need of academic accommodations and who is registered with the Office of Services for Students with Disabilities, please make an individual appointment with me to discuss accommodations. Upon request, this syllabus can be made available in alternative forms.

CHEATING AND PLAGIARISM:

Cheating and plagiarism continue to be significant problems on campus (and nationally), and honest students are becoming more vocal when they witness an academic infraction. In most cases, students who cheat are either unaware of the potential consequences, or they choose to ignore them and take their chances.

Academic integrity is strongly supported by the faculty and students at the College of Nursing. Cheating and plagiarism are problems that are viewed with great seriousness by both the College of Nursing and the University.

Please consult the University of Kentucky Student Code of Conduct, Sections 6.3.1 - *Plagiarism* and 6.3.2 - *Cheating* if you have any concerns. This can be found at http://www.uky.edu/StudentAffairs/Code/part2.html.

ASSIGNMENTS

Video Validation of a Basic Physical Assessment (25%)

Assignment:

Perform a complete basic physical assessment on a simulated patient.

Process:

Use the video validation method (posted on the course Bb site).

Due Date:

September 22, 2008 5pm

Evaluating Communication Techniques Assignment (25%)

Assignment:

Evaluation of communication techniques used during an assessment situation.

Process:

- 1. Choose or describe a patient from a selected population (e.g., ethnic, cultural, pediatric, adolescent, geriatric, visually or hearing impaired, cognitively impaired, physically impaired, etc.). This can be a patient from a real work situation or a simulated patient.
- 2. Complete at least one component of a history or physical assessment on the patient.
- 3. Write a brief description of your approach to assessing this patient that is different than the approach used for a healthy, functional adult.
- 4. Describe a model of wellness, illness, or health promotion that helped you collect and interpret assessment data.
- 5. Identify 2-3 principles that helped with communication during the assessment.
- 6. Identify any specific assessment instruments that facilitated your communication.
- 7. Read and summarize <u>one</u> article from a peer-reviewed journal that describes communication techniques or instruments that contributed to the successful assessment situation.
- 8. Upload the completed assignment to the Bb Digital Dropbox.

Due Date: November 17, 2008 5pm

Participation in On-Line Preparation (25%)

Assignment:

Complete on-line preparatory assignments for various classes.

Process:

Complete on-line preparatory assignments as directed.

Due Dates: - Vary - see below

Due Date	Topic	Doc.com #	Doc.com Title
Sept 1	History and Interviewing Process	# 5 #6 #7 #8 #9	 Integrated Patient-centered and Doctor-centered Interviewing Build a Relationship Open the Discussion Gather Information Understand the Patient's Perspective
Sept 8	Communicating with Colleagues	#37	The Oral Presentation

Sept 15	Psychosocial Assessment and Mental Status Examination	#13	Responding to strong emotions
Sept 22	 Pediatric Interview and Assessment Adolescent Interview and Assessment 	#21 #22	The Pediatric InterviewThe Adolescent Interview
Sept 29	Geriatric Interview and Assessment	Independent Module	
Nov 10	 Ethnic & Cultural Considerations during Health Assessments Ethical and Legal Implications of Conducting Health Ass 	#15 Independent Module	Understanding Difference and Diversity in the Medical Encounter: Communication across Cultures
Nov 17	Assessment of Anxiety, Depression, and Substance Abuse in Adults and Children	#26 #27 #29	 Anxiety and Panic Disorder Communicating with Depressed Patients Alcohol: Interviewing and Advising
Nov 24	Taking a Sexual HistoryAssessment of Domestic Violence	#18 #28	Exploring Sexual IssuesDomestic Violence

Final Examination (OSCE) (25%)

Assignment:

Perform Objective Structured Clinical Examination (OSCE) on standardized patient. This will include a focused history and problem-based physical assessment.

Process:

- 1. Sign-up for a time to complete your final SCIM or OSCE.
- 2. Arrive at the OSCE Building 15 minutes before your scheduled time.
- 3. Perform the assigned problem-focused history and assessment on the standardized patient.
- 4. Complete a clinical narrative.
- 5. Obtain grade:
 - a. A SCIM with a grade of 80% or better may count as your final exam (OSCE). No further final examination is necessary.
 - b. A SCIM with a grade below 80%, or a SCIM with a grade that is unsatisfactory to the student may be repeated the following week.
- 6. Complete Final Exam OSCE as described in steps 1-5.
 - a. If both a SCIM and OSCE are completed and both receive a passing grade, the higher of the two grades will be recorded in the grade book.
 - b. If the original SCIM was performed at a proficiency of < 80%, only the OSCE grade will be recorded in the grade book.

Due Date:

SCIM: December 8, 2008 OSCE: December 15, 2008
