¹ Prior to filling out this form, you MUST contact the Associate Provost for Academic Administration (APAA). If you do not know the CIP code, the APAA can provide you with that during the contact.

² Program changes are typically made effective for the semester following approval. No changes will be made effective until all approvals are received.

If there is only one plan for the degree, plans involving a thesis (or the equivalent in studio work, etc.) should be discussed under Plan A and those not involving a thesis should be discussed under Plan B.

MEMORANDUM

TO:

Dean Jeannine Blackwell

FROM:

Steven Skinner, Associate Dean Stu-Shi

DATE:

October 2, 2013

SUBJECT:

Proposed Revision of the One Year Accelerated MBA Program

Background

The current One Year Accelerated MBA program was launched in 2005. It was innovative in its design and delivery format consisting of several modules that require a large amount of coordination between professors with several 1 and 2 hour courses embedded within each of the modules. The curriculum for this program in its current format can be found in Exhibit 1.

In the fall of 2012, the MBA Policy Committee conducted a thorough investigation of the program as it approached its tenth year of existence. The committee included Professors Joe Labianca, Donald Mullineaux, Frank Scott, Leslie Vincent, and David Ziebart; The Director of the MBA Program, Mr. Harvie Wilkinson, participated as an ex-officio member; the student member was the president of the MBA Association, Mr. Quin Broadbent. Based on feedback from students, faculty and department chairs staffing the program, the committee made the following recommendations to the Gatton faculty.

Recommendations

- 1. Align the program with the rest of the University calendar. In its current form students matriculate through the program from mid-June through late-May. While the problems in scheduling and billing have been overcome, a major problem that remains is that students are not able to begin work in early May when many organizations have their training programs. This is a disadvantage when competing in the job market with graduates of other MBA programs who finish in early May.
- 2. **Simplify the delivery into more standard courses.** Student feedback indicates they would prefer the normal three-hour course delivery and no 1 and 2 hour classes. Some students indicated they did not know who the professor was from day-to-day and bringing in adjuncts to teach 1-hour classes was not favored.

- 3. Design a more favorable learning experience for students and teaching experience for faculty. While some faculty members prefer to teach in concentrated blocks, many don't and have voiced reservations with teaching in the One Year Accelerated MBA Program. In some instances a class runs for a few weeks but the instructor is in the class for several hours each day. Students have also voiced concern with this amount of concentration and have suggested 8-week courses, similar to summer. One student compared such concentration to drinking water out of a hose. Some department chairs find it difficult to encourage faculty members to teach in this program.
- 4. Simplify and streamline the administration of the program. The administration of the program is unnecessarily complicated. With the 1 and 2 hour courses, it is difficult to account for the instructor's DOE. The modules are particularly complicated to administer and require a great deal of coordination. Without the coordination students find some degree of redundancy and confusion. An example is the New Product Development Module, found in Exhibit 2, which illustrates most of the issues raised; it is difficult to get professors interested in teaching in it, it requires a great degree of coordination among all the faculty involved (in this module six courses plus project connect), is very intense, and without the proper coordination confusing to students.
- To achieve these goals the committee recommended the revised curriculum found in Exhibit 3. The motion to adopt this revised curriculum was passed unanimously April 26, 2013 at the Gatton College spring faculty meeting. Note the program now adheres to the University calendar, is offered during regular sessions, and delivers the same course content as the current program. It does not require the same amount of coordination, will enable students to progress through the program taking 3-hour courses, and they will finish in May on the normal University calendar and in a timely manner for the job market. This revised calendar will also be more attractive to faculty. Finally, although there are fewer courses in the proposed curriculum, the learning outcomes remain the same as well as the number of hours. There are no 1 or 2 hour courses; this material is incorporated into the proposed courses. For instance, the material from MBA 608 is covered in MGT 611 and the material from MBA 619 is covered in ACC 628.

Several changes are required to implement these recommendations and are shown in Exhibit 3. The appropriate documents for these changes attached. The committee believes strongly that these changes will greatly benefit the students in the One Year Accelerated MBA Program. The courses in the current curriculum with the MBA prefix will eventually be phased out as they are longer needed.
