Re: Physics program changes due to credit hours changes for CHE 105, CHE 231, and CHE 233

Changes in CHE 231 and CHE233 have no effect on the BS or BA in Physics program.

The change in credit hours of CHE 105 do not change any requirement for BS and BA in Physics. However, there is a change in the distribution of hours:

Premajor requirement: plus one hour because of CHE 105.

Major requirement: minus one hour from outside department electives.
