COURSE DESCRIPTION

This course offers a survey of the major mental disorders typically encountered by social workers in clinical practice, protective services, family services, and other practice areas. It is designed to increase the social worker's working familiarity with diagnostic classifications, criteria, etiologies and natural histories of disorders and social work treatments for disorders. Prerequisite: Admission into the MSW program with advanced standing or completion of SW 600, SW 601, and SW 635.

COURSE OBJECTIVES

This course will:

1. Identify and describe the essential features of the major DSM Axis I disorders most commonly encountered in a social work practice. (2.1.7, 2.1.10)
2. Identify and describe the characteristics, development, and natural history of the major DSM Axis II disorders encountered in social work practice. (2.1.7)
3. Identify, describe, and discuss the major substance-related disorders and their co-occurrence patterns with other Axis I and Axis II disorders. (2.1.7, 2.1.10)
4. Describe and discuss the neuroanatomical and neurochemical substrates of the major disorders (2.1.3, 2.1.7, 2.1.10)
5. Describe and discuss the effects and mechanisms of psychotropic medications and psychosocial interventions for mental, emotional and behavioral disorders (2.1.1, 2.1.2, 2.1.6, 2.1.9, 2.1.10)
6. Describe and discuss the limits of psychiatric diagnostic labels and the constructive social work application of diagnostic thinking about clients. (2.1.1, 2.1.2, 2.1.3, 2.1.4, 2.1.5, 2.1.9, 2.1.10)

PRACTICE BEHAVIORS (LEARNING OUTCOMES)

By the end of this class, students are expected to build towards or acquire competency in the following practice behaviors. Students are expected to demonstrate the ability to:

Primary Practice Behaviors

1. Recognize and manage personal values so professional values guide practice. [2.1.2.1]
2. Analyze models of prevention, assessment, intervention, and evaluation. [2.1.3.2]
3. Recognize the extent to which a culture's structure and values may influence marginalization, privilege, power, and the forms and mechanisms of oppression. [2.1.4.2]
4. Recognize and communicate their understanding of the importance of differences (diversity) in the shaping of an individual's life experiences. [2.1.4.3]
5. Utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation. [2.1.7.1]

6. Critique and apply knowledge to understand person and environment. [2.1.7.2]
7. Collect, organize, and interpret client data. [2.1.10.b.1]
8. Separate fact from opinion in data presentation. [2.1.10.b.2]
9. Assess clients' strengths and limitations. [2.1.10.b.3]
10. Select appropriate intervention strategies. [2.1.10.b.5]
11. Critically analyze and evaluate interventions. [2.1.10.d.1]

Secondary Practice Behaviors

1. Identify and practice within professional roles and boundaries. [2.1.1.3]
2. Understand the forms and mechanisms of oppression and discrimination. [2.1.5.1]
3. Use research evidence to inform practice. [2.1.6.2]
4. Continuously discover, appraise, and attend to the contextual changes. [2.1.9.1]

Means

1. Demonstrate effective oral and written communication in professional settings. [2.1.3.3.]

DISABILITY STATEMENT

Any student who has a documented disability that requires academic accommodations in this course must make their request to the Disability Resource Center. The Center will require current disability documentation. When accommodations are approved, the Center will provide the instructor with a Letter of Accommodations which details the recommended accommodations. Contact the Disability Resource Center Director, Jake Karnes, at 859-257-2754 or jkarnes@email.uky.edu.

COURSE COMPONENTS

1. **Quizzes:** There will be seven quizzes worth **30%** of the course grade. They will consist of multiple choice questions and will cover the assigned readings from that week. The quizzes will not be announced prior to class and may be expected in any class. The two lowest quiz grades will be dropped at the end of the semester and the five highest grades will be counted in the final grade.
2. **Signature Assignment: Individual Research Paper:** The signature assignment for this course is an individual paper (12-15 pages) worth **25%** of the grade. The paper will review research literature on one mental health disorder that has a particularly significant impact on a specific subpopulation.
3. **Group Research Paper: 25%** The group research paper will review research literature on a mental disorder with a high rate of comorbidity with a substance abuse disorder and compare and contrast two theories that discuss the etiology of dual diagnosis (15-20 pages).
4. **Seminar Discussion Group:** In-class group discussion exercises: **10%**.
5. **Class Participation: 10%**

Grades will be earned based on attendance, on class participation, and on completion of in-class exercises

Group assignment grades will be based on the group product and a detailed description of each group member's contribution to the product.

COURSE POLICIES

- 1. Class Format:** Classes will be conducted in a seminar/lecture/discussion format. Students are expected to be actively involved in the knowledge building process and to participate fully in class work session activities. The ability to debate and analyze practice and ethical issues is central to this class.
- 2. Participation and Attendance:** Attendance does influence the final course grade. All courses in a professional curriculum demand class participation and full attendance. Class attendance and participation reveal, to a large extent, a student's commitment to her or his education. Absences not discussed with the professor prior to or within a week of the absence will be considered unexcused and will impact your participation grade. **A final grade will be lowered by one letter grade if more than 2 classes are missed for reasons other than those considered excused as defined in the Student Rights Handbook.** You may be asked to verify your absence. You are expected to be on time for class and

to stay for the entire class time in order to receive credit for attending class. (For example, if you leave at break, you will not receive credit for attending class). If an exceptional circumstance occurs that requires the need to arrive late or leave early, please notify the professor.

Class participation will account for 10 percent of the final course grade. In order to receive full credit for class participation, students must attend all classes and remain active participants in the learning process throughout the class time frame.

- 3. Excused Absences:** Students need to notify the professor of absences prior to class when possible. S.R. 5.2.4.2 defines the following as acceptable reasons for excused absences: (a) serious illness, (b) illness or death of family member, (c) University-related trips, (d) major religious holidays, and (e) other circumstances found to fit "reasonable cause for nonattendance" by the professor.

Students anticipating an absence for a major religious holiday are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays no later than the last day in the semester student are able to add a class. Information regarding dates of major religious holidays may be obtained through the religious liaison, Mr. Jake Karnes (859-257-2754).

Students are expected to withdrawal from the class if more than 20% of the classes scheduled for the semester are missed (excused or unexcused) per university policy.

- 4. Verification of Absences:** Students may be asked to verify their absences in order for them to be considered excused. Senate Rule 5.2.4.2 states that faculty have the right to request "appropriate verification" when students claim an excused absence because of illness or death in the family. Appropriate notification of absences due to university-related trips is required.
- 5. Submission of Assignments:** Papers need to be formatted according to **APA publication guidelines (6th edition)**. Please see the professor if you are unfamiliar with APA style writing. All written work is expected to be typed using 12 point font, double space and printed on white paper with 1" margins on all sides. You are expected to submit papers free of grammatical and spelling errors, and to use citations when appropriate. You should strive to write with clarity, and support your ideas and assertions with sound, informed reasoning. The ability to explain your ideas is absolutely essential for sound social work practice. Please use spell check, grammar check and proof reading work is expected prior to the submission of any assignments. **Grades will be lowered for work submitted not in accordance with these guidelines.**

All assignments are due at the beginning of class on the stated due date in the course calendar. Each assignment will specify the submission format in which the assignment is expected (electronic or hard copy). **Late assignments will be penalized 5 points each day late unless otherwise arranged with the professor.**

6. Make-up Opportunities: Make-up quizzes/project work/exams will only be considered for those students for whom the conditions for excused absences outlined in the Student Handbook apply. Students who miss quizzes or other graded projects because of arriving late to a class with an unexcused absence will not be able to make up that quiz or graded work. Only students who miss a class with verified excused absences will be able to make-up exams/quizzes or other graded projects. **It is the student's responsibility to inform the instructor of an excused absence preferably in advance, but no later than one week after it.**

7. Academic Integrity Statement: It is expected that students at UK will refrain from plagiarism and cheating. Plagiarism and cheating are serious breaches of academic conduct and may result in permanent dismissal. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: <http://www.cs.uky.edu/%7Epaulp/Plagiarism.htm> A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.

Part II of *Student Rights and Responsibilities* (available online <http://www.uky.edu/StudentAffairs/Code/part2.html>) states that all academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about the question of plagiarism involving their own work, they are obliged to consult their instructors on the matter before submission.

When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording or anything else from another source without appropriate acknowledgement of the fact, the students are guilty of plagiarism. Plagiarism includes reproducing someone else's work, whether it be a published article, chapter of a book, a paper from a friend or some file, or something similar to this. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work which a student submits as his/her own, whoever that other person may be.

Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone. When a student's assignment involves research in outside sources of information, the student must carefully acknowledge exactly what, where and how he/she employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas which are so generally and freely circulated as to be a part of the public domain (Section 6.3.1).

Please note: Any assignment you turn in may be submitted to an electronic database (such as Turnitin.com or Safeassign in Blackboard) to check for plagiarism comparison.

A penalty for an academic offense, such as cheating or plagiarism, can be as severe as a failing grade on the assignment or failing the course.

- 8. Classroom Behavior, Decorum, and Civility:** Because other students depend upon the presence of student colleagues for discussion and for completion of case presentations, class attendance and participation is very important. The possibility of developing collaborative skills, team building, and collegiality is greatly diminished without full attendance.

The College of Social Work has strong commitments to respect of diversity and the valuing of differences among members of our academic community. Academic discovery includes discussion and debate, and the right to respectfully disagree from time-to-time. Students have a right to voice reasoned opinions contrary to those offered by the instructor and/or other students (S.R. 6.1.2) but should do so respectfully and civilly. Disagreements and opinion statements that include attacks of a personal nature or statements degrading another on the basis of race, sex, religion, sexual orientation, age, national/regional origin or other irrelevant factors may affect one's grade because they are unacceptable and do not contribute to a safe, productive learning environment.

- 9. Limit classroom disruptions:**

***** Turn off all cell phones (or put on vibrate mode) and other electronic devices and store them during class. *****

*****Lap tops are permitted in class only for note-taking and other required activities. If used during class for other purposes (such as email, surfing the internet, etc) you will be asked to put your laptop away and leave it at home or stored during future classes.*****

Students are expected to actively participate in the class discussions by:

- * Coming to class having completed assigned readings and prepared to discuss them
- * Demonstrating an active interest in the topic being discussed by verbal and nonverbal behaviors
- * Taking part in the class discussion vs. engaging in side conversation with those around you
- * Demonstrating a commitment to share thoughts and feelings with other students
- * Assuming responsibility for involving the other students in all subjects discussed (listening, asking others questions, and allowing space for others to contribute)
- * Sharing relevant information from one's knowledge base or life experiences with classmates
- * Students are expected to follow social work ethics by respecting their colleagues and maintaining confidentiality.

10. Professional Preparation: As a social work major, you are expected to adhere to the standards and guidelines for professional behavior as outlined in the *NASW Code of Ethics* and social work licensure rules and regulations expectations.

In addition, as an outcome of your education, you are expected to identify as a professional social worker and conduct yourself accordingly (CSWE Educational Policy 2.1.1). As social work students, you are preparing to represent the profession, its mission, and its core values in your future practice. Therefore, part of your education includes achieving and demonstrating competency in the following practice behaviors:

- Advocating for client access to the services of social work;
- Practicing personal reflection and self-correction to assure continual professional development;
- Identify and practice within professional roles and boundaries;
- Demonstrate professional demeanor in behavior, appearance, and communication;
- Develop a commitment to engage in career long learning;
- Effectively use supervision and consultation.

11. Hybrid Model: For the hybrid model of this course, there will be fewer than 50% face-to-face/classroom meetings. Course materials will be posted on Blackboard; written assignments will be submitted via Blackboard and group discussions will be conducted via Blackboard. The instructor will be available for email and/or telephone discussions during the posted class time (unless otherwise noted); the professor will respond to student communications within 3 working days. Students will need internet access to Blackboard materials. For technical problems, contact the Teaching and Academic Service Center (TASC) at <http://www.uky.edu/TASC/> (phone: 859-257-8272) or the Information Technology Customer Service Center at <http://www.uky.edu/UKIT/> (phone: 859-257-1300). Distance Learning Form

This form must accompany every submission of a new/change course form that requests distance learning delivery. This form may be required when changing a course already approved for DL delivery. **All fields are required!**

Introduction/Definition: For the purposes of the Commission on Colleges Southern Association of Colleges and Schools accreditation review, *distance learning* is defined as a formal educational process in which the majority of the instruction (interaction between students and instructors and among students) in a course occurs when students and instructors are not in the same place. Instruction may be synchronous or asynchronous. A distance learning (DL) course may employ correspondence study, or audio, video, or computer technologies.

A number of specific requirements are listed for DL courses. **The department proposing the change in delivery method is responsible for ensuring that the requirements below are satisfied at the individual course level.** It is the responsibility of the instructor to have read and understood the university-level assurances regarding an equivalent experience for students utilizing DL (available at <http://www.uky.edu/USC/New/forms.htm>).
