February 25, 2004

Jeffrey B. Dembo, D.D.S., Chair  
University Senate Council  
10 Administration Building  
CAMPUS 0032

Dear Dr. Dembo:

At its meeting on February 24, 2004, the Academic Council for the Medical Center voted unanimously (8:0) to recommend approval of the proposal to create a College of Public Health. The MC Academic Council evaluated not only the proposal itself but also considered a draft report from the Faculty Council in the College of Medicine. The MC Academic Council weighed the strengths and concerns raised by the Faculty Council carefully. On balance, the Academic Council was in support of creating the proposed new college. Attached are the materials to support this recommendation.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Watt'.

David S. Watt, Ph.D., Chair  
Academic Council for the Medical Center
