The SAASC convened on Friday, February 16, 2018 to consider a proposal from the College of Engineering involving a change in the BS – Mechanical Engineering program. The change involves a decrease in the total number of credit hours (from 130 to 127).

Attendance: Dan Morey, David Hulse, Dan Howe, Fred Danner, Kevin Donohue, Brad Hubbard, Brad Kerns, Rebecca Kellum, Herman Farrell (Chair).

Procedure:

Brad Hubbard served as the facilitator of the proposal. He corresponded with Dr. Kim Anderson, the contact person for the proposal.

Discussion:

At the meeting, Brad Hubbard provided a brief synopsis of the proposal and the rationale for the reduction in credit hours, notably, to align the mechanical engineering program with the CPE mandate, that limits credit hours to 120 but allows for exceptions up to 128 for STEM programs. The change involves the elimination of 3 credit hours for “supportive electives.” The chair noted that this proposal was similar to the proposal re Civil Engineering that the SAASC and SC had already reviewed and approved.

Vote:

A motion was made and seconded that the SAASC approve the proposal from the College of Engineering involving a change in the BS – Mechanical Engineering program.

The committee voted 9 in favor, 0 opposed.

CHANGE UNDERGRADUATE DEGREE PROGRAM

PLEASE NOTE: To ensure that a series of changes to an existing degree program does not essentially create a new program, the Southern Association for the Accreditation of Colleges and Schools (SACS) requires submission of its Substantive Change Checklist for every program change. Prior to college-level review, you must fill out and submit the SACS Substantive Change Checklist to the Office of Institutional Effectiveness. Contact Institutional Effectiveness (institutionaleffectiveness@uky.edu) for assistance.

Once approved at the college level, your college will send the proposal to the appropriate Senate academic council (HCCC and/or UC) for review and approval. Once approved at the academic council level, the academic council will send your proposal to the Senate Council office for additional review and then a 10-day posting online, during which senators review on their own and have an option to register an objection if they so desire. If no objection is raised to the Senate Council Office within ten days of the posting the proposal, then the program change is approved. The Senate Council Office will report approvals to the Provost, Registrar and other appropriate entities, including the contact person.

For every proposed change, you MUST also include the existing requirement.

Subject: Mechanical engineering, BS-Sub Change

Dear Barabara Brandenburg,

Thank you for your email regarding the proposed program change(s) **Mechanical Engineering, BSMEET (14.1901)**.

My email will serve 2 purposes: 1.) Next steps for SACSCOC, and 2.) Verification and notification that you have contacted OSPIE—a Senate requirement for proposal approval.

1. **Next steps for SACSCOC:** None required
2. **Verification that OSPIE has reviewed the proposal:** Based on the proposal documentation presented and Substantive Change Checklist, the proposed program changes (refer to list below) are not substantive changes as defined by the University or SACSCOC, the university's regional accreditor. Therefore, no additional information is required by the Office of Strategic Planning & Institutional Effectiveness at this time. The proposed program change(s) may move forward in accordance with college and university-level approval processes.

List of Proposed Change(s):

- Reducing credit hours from 130 to 127 due to CPE mandate

Should you have questions or concerns about UK's substantive change policy and its procedures, please do not hesitate contacting me.

Re: Mechanical Engineering support for change to program credit hours

The Mechanical Engineering faculty discussed changes to the total credit hours for the program at our regular faculty meeting on September 6th, 2017. At the recommendation of our Undergraduate Studies Committee, the faculty voted unanimously to remove the supporting (free) elective from the program requirements, reducing the total credit hours for the program to 127.
