Re: *In Memoriam* Degree – [REDACTED], [REDACTED]

The University of Kentucky College of Medicine requests the awarding on an *In Memoriam* degree to [REDACTED].

[REDACTED] was in the middle of his third year of medical school when he died. The class of 2018 has endured several hardships, most notably, the sudden loss of their classmate. He was on track to graduate with them on May 12, 2018.

[REDACTED] meets the criteria for the awarding of an *In Memoriam* degree. At the time of his death, he was a registered student in good academic standing at the University of Kentucky College of Medicine. We would like to deliver his degree to his family on May 12, 2018.

Sincerely,

A handwritten signature in black ink that reads 'A. Hoellein'.
