Subject: Proposed Suspension of Graduate Certificate in Pharmaceutical Sciences

Proposed Suspension of Graduate Certificate: Pharmaceutical Sciences

This is a recommendation that the University Senate approve the suspension of admission into an existing graduate program: Certificate in Pharmaceutical Sciences, in the College of Pharmacy.

Rationale:

A dual degree program PharmD/MS in Pharmaceutical Sciences was developed and approved and now fulfills the purpose of the initial creation of the graduate certificate. The graduate certificate is no longer needed. There are currently no students in the program.

A revised proposal is forthcoming.

Thanks!
Margaret

Sorry for the confusion.

Yes, that email was for their approval to suspend the certificate. We did not receive any votes to not approve suspension or any objections.

Dear Graduate Faculty,

In 2011, we received approval for a graduate certificate in pharmaceutical sciences. The Purpose/Rationale is described on page 6 of the attached document and I have added it below.

Now that we have the dual degree PharmD/MS in pharmaceutical sciences, this certificate program is no longer necessary. The Graduate School has suggested that we move to suspend the certificate if it is no longer serving the program as intended. The Graduate Program Committee has recommended suspension of this certificate program.

Please let me know by next Friday, May 26th if you vote to approve suspension of this certificate program or vote to not approve suspension. If you do not respond by Friday, May 26th, then it will be presumed that you approve.

Thank you,

Catina
