July 26, 2018

Dr. Jennifer Bird-Pollan
Chair, University Senate Council
203 Main Building
Lexington, KY 40506-0032

Dear Dr. Bird-Pollan:

On behalf of the College of Agriculture, Food and Environment and the Department of Animal and Food Sciences, I would like for ██████████████ (███████) to be considered for an "In Memoriam" Bachelor of Science in Animal Sciences degree. ████ passed away from injuries sustained in an automobile accident on July 27, 2017.

At the time of his death, ██████ was a senior majoring in Animal Sciences and was on track to complete his degree in May 2018. ██████ was a high achieving student with a 3.907 cumulative GPA. He was only 24 credit hours away from completing his degree and meeting all necessary pre-requisites for Auburn University's College of Veterinary Medicine. In addition to his studies, ██████ spent many hours working at a local veterinary clinic and conducting research with a departmental faculty member. ██████ was an extremely bright young man who was respected by his peers and well-liked by professors. His death was a difficult loss for the department and college.

If approved, I would like to request ██████'s "In Memoriam" degree be retroactively conferred for May 2018 as this was his planned term of graduation. Please let me know if I can provide any additional information.

Sincerely,

Jamie R. Dunn
